(Local FAB students, we welcome you to attend virtually as well, if attending in-person is cumbersome.)

We truly care for our FAB students, and we believe (and hope) you feel that care, too - we think our desire to serve you has helped our student body grow over 300% since our first session in spring! About 30% of our students are from outside Ventura County, California, and nearly 10% are from out of state. We are so honored that you take courses with us, and we look forward to continuing to offer courses and other programming for you!

And because we enjoy getting to know our students, beginning with this newsletter, we will introduce some of our students, as a way for you to meet some of your fellow-classmates. Please see the FAB student profiles below. If you or a fellow FAB student have an interesting story to share, let us know and you might be featured in an upcoming newsletter.

During sessions or between sessions and lectures, don't be a stranger! Reach out to us at fab@callutheran.edu with questions, comments, or suggestions!

We look forward to seeing you at our upcoming lectures.

FAB Student Profile:

Debra Vaughan

Debra Vaughan currently lives in Poulsbo, Washington, but lived in Thousand Oaks for a few years prior. She heard about Fifty and Better from a friend and fellow FAB student, and has enjoyed all of the classes she has taken so far.

Debra is impressed by how seriously FAB instructors take their classes and strive to engage and inform students about the subject matter, even though these classes are not for grades or credits towards a degree. She is thankful for FAB because there are no options like this near her and the virtual nature fuels her love of learning, especially during the pandemic.

Fun fact! Debra has three Australian Shepherds, and she trains them in agility, obedience, scent work, and tricks.
