Notice to Employees--Injuries Caused By Work

You may be entitled to workers' compensation benefits if you are injured or become ill because of your job. Workers' compensation covers most work-related physical or mental injuries and illnesses. An injury or illness can be caused by one event (such as hurting your back in a fall) or by repeated exposures (such as hurting your wrist from doing the same motion over and over).

Benefits. Workers' compensation benefits include:

Medical Care: Doctor visits, hospital services, physical therapy, lab tests, x-rays, medicines, medical equipment and travel costs that are reasonably necessary to treat your injury. You should never see a bill. There are limits on chiropractic, physical therapy and occupational therapy visits.

Temporary Disability (TD) Benefits: Payments if you lose wages while recovering. For most injuries, TD benefits may not be paid for more than 104 weeks within five years from the date of injury.

Permanent Disability (PD) Benefits: Payments if you do not recover completely and your injury causes a permanent loss of physical or mental function that a doctor can measure.
