**CALIFORNIA LUTHERAN UNIVERSITY AND AFFILIATE
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Note 2 – Summary of Significant Accounting Policies (continued)

Other intangible assets Other intangible assets consist primarily of goodwill, trademarks, trade names, software, leasehold improvements, and other intangible assets. Goodwill is the excess of the purchase price over the fair value of the net assets acquired. Goodwill is not amortized but is tested for impairment annually or more frequently if events or changes in circumstances indicate that it may be impaired. Impairment losses are recognized as the difference between the carrying amount and the fair value of the asset.

Impairment of long lived assets Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. If the carrying amount of a long-lived asset is not recoverable based on undiscounted future cash flows, an impairment loss is recognized in an amount equal to the difference between the carrying amount and the fair value of the asset.

Asset retirement obligations The Company has recorded asset retirement obligations for certain long-lived assets. These obligations are initially measured at fair value and are subsequently accreted to the present value of the estimated future cash flows. The estimated future cash flows are discounted at the interest rate implicit in the obligation or, if not readily determinable, the Company's incremental borrowing rate. The estimated useful lives of the assets are used to determine the timing of the cash flows.

Deferred revenue Deferred revenue consists of amounts received in advance of providing goods or services. The Company records deferred revenue until the related goods or services are provided.

Interest rate exchange agreement Interest rate exchange agreements are contracts that exchange one interest rate for another. The Company uses these agreements to manage its interest rate risk. The Company records these agreements as assets or liabilities at fair value.
